Re: Steel Costs & Pricing

Dear Valued Customer,

We hope this letter finds you well. We appreciate your continued partnership with ASC Building Products for your metal roofing and siding needs. As a valued customer, we strive to keep you informed about any changes that may impact our products and services.

Over the past few months, we have witnessed a significant increase in the cost of steel, a key raw material used in the manufacturing of our metal roofing and siding products. This rise in steel prices is a result of various global factors, including increased demand, supply chain disruptions, and market dynamics.

In light of these cost escalations, we find it necessary to adjust our pricing to ensure the sustainability and quality of our products. **Effective February 26, 2024 there will be a 5% increase on all metal roofing and siding panels.** New price pages will be provided in advance by your Outside Sales Representative.

We thank you for your business and look forward to our continued partnership now and into the future.

Best Regards,

A handwritten signature in black ink, appearing to read "David Ferrito".
