Re: Price Increase

To our Valued Customer:

We want to thank you for your current business and wish your company success for the remainder of the year. Due to announced cost increases for labor, energy, transportation, and raw materials, we will need to increase our product pricing.

For your planning and budgeting purposes:

- 2023 Product Pricing: **Effective July 1, 2023**, all product pricing will increase an average of 3%. Due to advance notice and per our General Service Agreement (GSA), price protection will not be allowed.

Please forward this notice to anybody in your organization that this may pertain to.

Thank you very much for the business. Please contact your Account Representative with any questions. Our team remains committed to this industry, servicing your organization, and meeting your needs as a strategic vendor partner.

Sincerely,

TCC Group Companies
