

May 15, 2024

I have attached a new price sheet that will take effect on 6-15-24. The only increases were on some of the tape products. Our manufacturer of tape products did a complete review of production times for tapes and therefore there were increases on several items but not all. There was no change to membrane or adhesive pricing.

Please let us know if you have questions, but we believe we still offer some of the lowest prices for tape products in the industry.
