

July 3, 2024

Dear Phifer Customer,

Effective September 1, 2024, Phifer will have a price increase of 5% on our aluminum screen products. This is a direct result of aluminum raw material increases over the last three months that have affected our screening production. You will receive a new program reflecting the new prices soon. We will send out our 2025 Pricing Program later in the fall. In the meantime, if you have questions please feel free to contact your sales rep, or you can contact Ron Hughston or myself at 800-841-9473.

Thank you for your business and the opportunity to service your screening requirements.

Best Regards,

Matt Barnett  
Sales Manager National Accounts
